Back to Robust Vitality
Are You Losing Strength

What would you not sacrifice to feel as you did a few years ago; to have the same snap and energy, the same gladness, joyous, light-hearted spirit and the same strength you used to have? You may be suffering from some man's disease that may be absolutely draining and undermining your very existence. If you are not the sound, vigorous man you once were, you certainly do not intend to remain a "half-man." I am restoring men to vigorous manhood by scientific methods, and if your case is within the reach of modern medical science, I can restore you.

Direct Medication

The Most Important Medical Achievement of the 20th Century.

For the past fifty years medical scientists have worked steadily with the view of devising a method of direct medication, that is, a method by which medicinal substances could be administered directly into the blood, the part or organ diseased. First came the hypodermic syringe and the administration of curative agents under the skin or directly into the diseased organs. Some ten years ago the administration of saline solutions directly into the blood stream was advocated and practiced. Since this time, medical science has gradually progressed until at the present time the direct method of medication has been perfected and has about taken the place of the old quackish way of treating many of the vital diseases. And why not? It is the more exact, safe and rational way of combating diseases, especially those caused by germs circulating in the blood.

I want a chance to prove I can cure afflicted, skeptical sufferers.

I no longer say what "I can do" but what "I HAVE DONE." I have helped thousands of men in all walks of life to arise to their very best—why not you?

Not a Medical Company.
No Hired Doctors See, Examine or Treat You.

Over 21 years a physician; 16 years a Specialist, as my Post Graduate work and clinical experience attest.

Men who were almost without hope of ever being restored after treating with others without benefit, have been restored by Dr. Smith to the snap, vim and vigor or robust manhood, natural to a man who has all the functions peculiar to a man in a healthy condition. They now can well appreciate skilled treatment administered by a competent Specialist, who through long experience KNOWS what to do and DOES IT.

PRICES ALWAYS REASONABLE—I will give the POOREST man a chance as well as the RICH to receive my treatment at a SMALL COST. There is no man too POOR to get my advice.

EXPERIENCE is what counts in curing these SPECIAL DISEASES, and as I have had more than 16 years' experience, you will readily understand why I am successful. Remember, that you are not asked to pay for any experiments or any failures. If your case will not yield to my treatment, I can ascertain that at the first examination, and will frankly tell you so, and give you advice how to take care of yourself.

NEWLY CONTRACTED DISEASES QUICKLY CURED.
Don't wait until nature gives way and the disease disorganizes important organs and nerves. STOP THE LEAK NOW. Thousands of men have been wrecked on the little rocks of vice, ignorance and neglect.

If you are afflicted with any Acute, Chronic, Nervous, Blood or Contracted Diseases, Stomach, Liver, Rheumatism, Varicocele, Prostatic Enlargement, Stricture, Hydrocele, Kidney, Bladder, Urinary, or any other Weakness, Defect or Disease of the Pelvic Organs, visit me today. If your case is curable I can relieve it quickly and permanently restore you.

Men Only DR. H. K. SMITH, Specialist

Coughs and Colds
are Dangerous!

One out of every three people die of Lung Diseases—all started with a Cough.

At First Sign of Cough take Dr. King's New Discovery.

Few of us realize the danger of Coughs and Colds. We consider them common and harmless ailments. However statistics tell us every third person dies of a lung ailment.

Dangerous Bronchial and Lung diseases often follow a neglected cold. As your body struggles against cold germs, no better aid can be had than Dr. King's New Discovery. Its merit has been tested by old and young. In use over 45 years. Get a bottle today. Avoid the risk of serious Lung ailments. All druggists.—Advt.

In Treating Tuberculosis

It should be remembered that one of the aids to relief is found in abundance of fresh air—day and night—the largest possible freedom from overexertion and well-cooked, pure food.

Attention to these should do much toward arresting the progress of the malady, but in many cases there is need for extra help. Where Nature has to work with a weakened body her power is limited. Before she can do her most, there must be a return to normality of functions.

Under such circumstances, try Eckman's Alternative, which has been used with large benefit by many sufferers from tuberculosis. In numerous cases it has helped to bring about recovery.

And since it contains no opiates, narcotics or habit-forming drugs, its use is not attended with danger. At your druggist's or direct Eckman Laboratory, Philadelphia.—Advt.

A FINE TREATMENT
FOR CATARRH

EASY TO MAKE AND COSTS LITTLE

Catarrh is such an insidious disease and has become so prevalent during the past few years that its treatment should be understood by all.

Science has fully proved that Catarrh is a constitutional disease and therefore requires a constitutional treatment. Sprays, inhalers, salves and nose douches seldom if ever give lasting benefit and often drive the disease further down the air passage into the lungs.

If you have Catarrh or Catarrhal deafness or head-noises, go to your druggist and get one ounce of Par-mint (double strength). Take this home and add to it 1-4 pint of hot water and 4 ounces of granulated sugar; stir until dissolved, take one tablespoonful 4 times a day.

This will often bring quick relief from the distressing head-noises, clogged nostrils should open, breathing become easy and mucus stop dropping into the throat.

This treatment has a slight tonic action which makes it especially effective in cases where the blood has become thin and weak. It is easy to make, tastes pleasant and costs little. Every person who wishes to be free from this destructive disease should give this treatment a trial.—Advt.
